Dear Commissioner Powell and Members, Please reject NAB petition 04-160. This is a blatant violation of the First Amendment. XM is pay for service and should be able to provide and content they deem will be too the memberships interest and needs. The NAB can't stand the competition since they have dominated since inception of AM radio. This is ludicrous and needs to be stopped now. Do not fall for the whining of the "Establishment". Reject the NAB's petition and strikeout for free speech!.Thankyou for your time
